## Cristina Vane: 'So Easy'

VERSE 1				
You know you're not at all to blame				
I was the one that played your game				
Cos it was so easy				
To make me believe you're worth my time				
Don't call me baby cos I'm gone				
You can't make right what you did wrong				
And if it's that easy				
Just get up and leave the way you do				
CHORUS 1				
And all this time				
Wasted on you				
I'll start anew				
It blows my mind				
To think I'd do				
Those things for you				
But this time				
It's easy to leave				
When it's you that I leave behind				
VERSE 2				
There's really not that much to say				
I'm just glad to be out on my way				
Cos you were consuming me				
Like I couldn't do better than you				
I'm gonna watch you disappear				

The blur that I once felt is so clear				
Cos it's just that easy				
To get up and leave because it's you				
CHORUS 2				
And all this time				
Wasted on you				
I'll start anew				
It blows my mind				
To think I'd do				
Those things for you				
But this time				
It's easy to leave				
MIDDLE SECTION				
So I kept hoping				
You'd open your arms				
The truth is you're nothing				
You only caused harm				
And it's your fault				
CHORUS 3				
And all this time				
Wasted on you				
I'll start anew				
It blows my mind				
To think I'd do				
Those things for you				
But this time				
It's easy to leave				

CHORUS 4				
And all this time				
Wasted on you				
I'll start anew				
It blows my mind				
To think I'd do				
Those things for you				
But this time				
It's easy to leave
