## Hollow Ground: 'Ill Fate'

VERSE A 1				
I will, I will shed a tear				
But not for you				
I will live in fear				
For the people I hold dear				
I hope they never see my hate				
CHORUS 1				
You, you make me sick				
You, you make me sick				
VERSE B 1				
Now you, you live under a rock				
And who's gonna be there				
To dig you out?				
Not me!				
VERSE B 2				
I'll be satisfied knowing that I tried				
This is for all the times				
That you fucking lied				
VERSE A 2				
No more chances				
You've crossed the line				
One too many times				
Look at you				
Hang your head in shame				
Was this a game?				

CHORUS 2				
You, you make me sick				
Whatever made you think we share				
The same ill fate?				
CHORUS 3				
You, you make me sick				
Whatever made you think we share				
The same				
III fate?				
OUTRO 2				
You fall deeper and deeper				
Each step takes you closer to death				
I'll be satisfied				
Knowing that I tried
