## James May: 'All Souls Moon'

VERSE 1				
A day when all the souls who've slipped away from here				
Draw close to those they've left behind				
So near I can hear their voices quickening				
Whispering to humankind				
CHORUS 1				
You're not alone				
You're not alone				
You're not alone				
You're not alone				
VERSE 2				
These eve as I wander through this sweet old town				
Down my street run scores of eager souls				
Disguised as an ogre black or a princess white				
From house to house they trick and treat the night				
CHORUS 2				
The spirits roam				
The spirits roam				
MIDDLE SECTION				
Life, the twinkle in your eyes				
The glowing flame behind the mask				
Jack o'lanterns do not last				
Time, it brings us to that door				
We step outside the bones we wore				
Leave behind the world once more				

VERSE 3				
Tonight in the orb a face of light smiling down				
Beaming through clouds of misty memory's swirls				
It's a line, a silver thread to the other side				
This All Souls moon confides in both the worlds				
This All Souls moon abides both the worlds
