Speak Softly: 'Broken Man'

VERSE 1				
Unwinding us like string				
Cut away the rot				
Weeding out the thorns				
Unravelling the knot				
Let me unfold this map				
Trace my finger down the path				
Try to find my way				
Back to where you are				
CHORUS 1				
And your fears may never come				
These years have come undone				
Your fears may never come				
And these years have come undone				
Broken man				
VERSE 2				
Will I have to be				
Always on my knees				
To make you feel tall				
Give you room to breathe?				
Will I never have				
Just a sip of your love				
In case I waste it				
In case I spill it on the floor?				
CHORUS 2				

	_	r			
And your fears may never come					
These years have come undone					
Your fears may never come					
And these years have come undone					
Broken man					
MIDDLE SECTION					
I won't ask you to give					
It's too much for you to pay					
From milky hands					
CHORUS 3					
And your fears may never come					
These years have come undone					
Your fears may never come					
And these years have come undone					
CHORUS 4					
And your fears may never come					
These years have come undone					
Your fears may never come					
And these years have come undone					
Broken man
