

When I watch you									
Softly sleeping late at night									
<u>CHORUS 2</u>									
Through my eyes									
I see forever in you									
All my dreams and desires									
Alive and come true									
In you I see my destiny									
And the meaning in my life									
You'd understand									
If you could only see yourself									
Through my eyes									
<u>MIDDLE SECTION</u>									
And I have tried									
Over a thousand times to tell you									
But empty words don't tell the truth									
So it stays inside									
But if I could only show you									
What I see every time									
I cast my eyes on you									
<u>OUTRO (CHORUS 3)</u>									
You'd understand									
How lost I am									
You'd understand									
If you could only see yourself									
Through my eyes
